

Accessibility

Thank you for visiting the Department of Community Affairs (DCA) website. The DCA site is designed to make it easier and more efficient for Georgia citizens and businesses to interact with their State Government. But, as with all online resources, we appreciate that many visitors to this site will be concerned about accessibility to digital government. The State of Georgia is committed to providing an accessible, satisfying experience when you visit the DCA site.

Currently, DCA makes every effort to adhere to Priority 1 requirements as set forth by the World Wide Web Consortium (W3C) Accessibility Initiative. Validation testing is conducted with industry-recognized tools for coding and general usability.

Our goal is to provide an accessible, efficient and friendly digital government experience. If you are having difficulties accessing portions of this site, please contact the [Webmaster](#).
